

Exposure Report for Case # P-18-0379

General

Report Status: Complete
Status Date: 2018-10-26 11:13:53.172
Exposure Specialist: Orentas/ENC

Non-assessment/Non-exposure Category

Exposure Category: Exposure Category 2
Criteria Reasoning: <ul style="list-style-type: none">• No predicted environmental releases to water;• All predicted environmental releases to air; incineration, and/or landfill are below modeling assessment thresholds (acute scenario fugitive and stack post-treatment releases, [REDACTED] and [REDACTED] kg/site/day, respective; chronic scenario fugitive, stack, and landfill post-treatment releases [REDACTED], [REDACTED], and [REDACTED] kg/site/year, respectively); Health concerns for susceptible subpopulations were not identified; and• Chemical was not identified as being persistent and bioaccumulative during fate assessment.

Uses

Engineering Use: [REDACTED]

Other Uses: No
other uses were found for the PMN material.

Ratings and Concerns

Health Concerns: Dermal Drinking Water Inhalation		Override Health Testing:	
Eco Concerns: No releases to water		Override Eco: false	
P B Rating: 3;1		Most recent CoC value:	
Health Rating: 1-2		Override P Score:	
Eco Rating:		Override B Score:	
Non-Occupational: NR		Environmental: NR	
Production Volume: [REDACTED]		CRSS Descriptor:
